---

- Over 3 years of experience as an SAP Consultant and Agile Delivery Lead, with a strong track record of managing end-to-end SAP day to day scenarios, enhancing them with Azure DevOps and collaborating with WM initiatives. Proven ability to lead cross-functional teams, drive Agile delivery, and ensure projects are executed on time, within scope, and aligned with business goals
- Drove project execution at Steelcase in Make to deliver, creating team alignment by managing Agile delivery through Azure DevOps (ADO) boards, tracking progress and prioritization, leveraging Smartsheet for timeline and dependency management and preparing executive-level dashboards, Excel reports, and presentations to ensure transparency, accountability, and informed decision-making across stakeholders.
- Partnered with internal departments and management to collect, review, and interpret data. Generated clear and concise reports and presentations to effectively communicate complex information and support data-driven decision-making.
- Successfully designed analytics at Caterpillar Inc, specializing in real-time data visualization and insights for the Parts Support and Logistics Division in CAT, collaborating closely with cross-functional teams and clients to analyze requirements.

## WORK EXPERIENCE

---

### **Steelcase • Remote • 01/2025 - 04/2026**

#### **SAP EWM Consultant | Agile Delivery Lead**

- Facilitated end-to-end Agile and Scrum delivery by leading ceremonies, coaching by integrating with cross-functional teams, collaborating with Product Owners and stakeholders on backlog prioritization, removing impediments, driving continuous improvement, and leveraging Agile metrics to ensure transparency, alignment, and successful delivery of high-quality outcomes.
- Tracked project progress using Azure DevOps and Smartsheet, helping identify risks early and avoid delays. Executed as the main point of contact between business teams, developers, and leadership to keep communication clear and decisions moving.
- Managed end-to-end calls, sprint planning and backlog refinement, across the team and stayed focused and consistently meeting sprint goals. Worked closely with stakeholders to understand requirements, translate them into SAP solutions, and remove blockers to keep projects moving smoothly.
- Developed dynamic Smartsheet dashboards by collaborating with Azure DevOps data and leveraging Power Automate for workflow automation, providing real-time insights into project status, risks, and dependencies to support data-driven decision-making.
- Articulated governance for EWM process streams (Inbound, Outbound, and Staging) RF Framework, Warehouse Process Types, Supply Chain Units, and Bin Structures, while these technical solutions were rolled out on time under formal project governance.
- Worked on the Business Transformation project by enabling SIT and UAT phases, executing end-to-end warehouse test scenarios, ensuring business users are well-equipped to handle day-to-day warehouse activities with minimal disruptions.
- Led transportation and supply chain management projects with non-revenue organization, like shipment planning, Kanban procurement, and execution, integrating systems (EDI, Idoc) to automate logistics processes and achieve visibility.

### **Caterpillar Inc. • 01/2022 - 07/2022**

#### **SAP Techno Functional Consultant**

- Identified and optimized inefficiencies in warehouse processes across Inbound, Outbound, and internal movements, improving inventory accuracy and enhancing overall warehouse operational efficiency.

- Directed SAP functional activities, ensuring EWM inbound/outbound/internal processes, RF Framework, Warehouse Process Types, Supply Chain Units, and Storage Structures aligned with project objectives.
- Managed DC Inventory Management, Store Inventory Management, Replenishment, Returns Management, Purchase Orders, Invoicing, Serialization, and Cost Tracking in SAP. Demonstrated expertise and successfully developed full life-cycle SAP EWM and MM implementations with strong expertise in all components of EWM / MM module.
- Implemented and optimized SAP SCM processes, focusing on demand planning, supply network planning, and production planning within an S/4HANA environment to ensure seamless supply chain operations. Worked extensively with SAP EWM, handling order-to-cash processes, pricing procedures, credit management, and integration with logistics execution.
- Strong knowledge in IM areas such as Inventory Management, stock transfers, special stocks, stock types, Physical Inventory, Account Determination, and Valuation. Hands-on experience in warehousing operations, enhancing inventory accuracy and operational efficiency

**Edureka • India • Remote • 08/2020 - 01/2021**

**Technical Consultant**

- Developed and managed databases using SQL for efficient data storage, retrieval, and reporting, ensuring data accuracy and performance optimization.
- Designed and implemented to integrate disparate systems, enabling smooth data exchange and communication between enterprise applications.
- Leveraged Power BI and Tableau to create dynamic data visualizations and dashboards, enabling stakeholders to track key performance indicators and trends.
- Employed ETL processes using tools like Alteryx and Talend for data extraction, transformation, and loading, facilitating seamless integration of data from various sources.

**EDUCATION**

---

**Master's degree in Data Science**

Wichita State University • GPA: 3.67 • 08/2022 - 05/2024

**Bachelor of Engineering in Computer Science**

Sathyabama Institute of Science and Technology • 07/2016 - 05/2020

**CERTIFICATIONS**

---

**Certified ScrumMaster® (CSM®) • 05/2024 - 05/2026**

Scrum Alliance

**Google Advanced Data Analytics • 06/2024**

Google

**SKILLS**
